The Enneagram (“ennea” is Greek for nine) is a clear map revealing nine distinct personality styles, the connections between them, and the direction for individual growth and transformation. The uniqueness of this personality system lies in its ability to clearly identify motivations beneath behaviors. It brings to consciousness “why we do what we do” and brings awareness to where our minds focus when we live life on automatic. As we deepen our self-awareness, we become less reactive, more curious and compassionate. Understanding the nine different filters and motivations allows us to be more patient with differing points of view, cultivate more curiosity and lessen our judging.

When we know more fully what makes us tick and how we unconsciously limit ourselves, we can move out of our own way and become more fully ourselves as well as more aware of our impact on others.

During this workshop, participants will learn:

- **attentional patterns and world views of the nine types**
- **gifts and inner resources of each personality type**
- **the three centers of intelligence**
- **strategies for loosening automatic patterns**

Participants should arrive promptly so we may begin promptly at 9:00 am
